

Thermal Server

SYSTEM

Coffee – the way
it was meant to be.

Café-quality flavor, wherever you want it, whenever you want it. That's how Filterfresh makes coffee. And our *Thermal Server System* is no exception. Whether it's in your office, business, store or cafeteria, Thermal Servers keep a variety of coffee flavors tasting hot and fresh for up to six hours.

Great taste
and convenience too!

With a brewer that makes up to 3.9 gallons of delicious Filterfresh coffee an hour, this system is sure to keep up with your coffee-drinking demands. Plus, the fully portable servers can be moved to any location. Meeting rooms, lobbies, retail environments, break stations and breakfast bars all benefit from this top-of-the-line brewing configuration.

We understand
coffee lovers.

To make the perfect cup of coffee, you need more than a great brewing system. You need great coffee. Taste just one sip and you'll understand why Filterfresh is found in more than 30,000 businesses across the nation.

Van Houtte – Choose from more than 20 coffees, roasted in small batches in the European tradition. Van Houtte blends include dark desires such as French Roast and Midnight Express, lighter passions including 100% Colombian and Mellow Mocha, International blends such as Kenya Kilimandjaro and Mexico Organic Trans-Fair, and Flavored coffees including Bavarian Chocolate and Pecan Praline.

Filterfresh – A selection of 17 100% arabica coffee blends. Filterfresh coffees include a selection of regular, decaffeinated, specialty roasted and flavored blends, among them High Mountain Arabica, Tarrazu Noir, Naturally Decaffeinated and French Vanilla.

Green Mountain – A selection of thirty regular, dark, decaf, flavored and flavored decaf blends are available, including their trademarked Nantucket Blend®, Rain Forest Nut®, Lake and Lodge® and Vermont Country Blend®.

Starbucks – 6 Starbucks blends provide a range of mild, smooth, and bold coffees, including Breakfast Blend, Café Verona, and Sumatra among others.

Why choose the Thermal Server System?

- Its narrow, attractive brewer will fit almost anywhere.
- Available in either plumbed-in or pour-over models.
- Brewer features a black powdercoat finish for long-lasting durability.
- Coffee stays hot and fresh in the server for up to six hours.
- The fully portable server is easily transported to remote locations.
- A flow-through lid prevents heat loss and keeps taste at a maximum.
- Plumbed-in brewing system features hot water tap for tea, instant soup or hot chocolate.
- A choice of delicious coffee blends and brands.
